

A modern office chair with a light-colored mesh back and a chrome base is positioned in the center of a bright, high-rise office space. The floor is highly reflective, mirroring the chair and the city skyline visible through the large windows. The background is a dense urban landscape with various skyscrapers under a clear sky.

LIVE: Microsoft Is Giving Us A Look At The New Version Of Windows, Windows 10

STEVE KOVACH OCT 1 2014, 2:40 AM

We're going to learn what's next for Windows today.

Microsoft is holding an event in San Francisco today to give us a first look at the next version of Windows, which is expected to launch next year.

Keep in mind this isn't a big, splashy launch event. That will probably happen when Windows 10 is more polished. Microsoft is calling today's event a "dinner" about Windows with two executives, Terry Myerson and Joe Belfiore. Microsoft is all about how the next version of Windows will work for big enterprise customers.

The event starts at 10 a.m. Pacific, 1 p.m. Eastern. You can follow all the news as it happens in our **live blog** below.

The Top 25 Business Schools In The World [INFOGRAPHIC]

SKYE GOLD, JENNIFER POLLAND AUG 4 2014, 11:52 PM

We recently published our list of the World's Best Business Schools.

For our fifth annual survey of the World's Best Business Schools, we asked thousands of professionals from around the world who have experience hiring MBAs to determine the best business school. They came back with a clear favorite: **Harvard University**.

Survey participants rated the reputation of the graduates from top business schools around the world on a scale of poor to excellent (1 to 5), with excellent ratings used as a tiebreaker. We included responses only from professionals who said they had experience hiring MBAs, as well as other filters to improve/optimize our survey pool.

We thought it would be interesting to create an infographic that breaks down the top 25 schools by geographical region:

2014 RANK	BUSINESS SCHOOL	LOCATION	2013 RANK	THE SURVEY
1.	Harvard University	Cambridge, MA	1.	Nearly 10,000 Business Insider readers voted in our survey on the World's Best Business Schools. Respondents used the reputation of the graduates from top business schools to determine the best school in their geographic region (US, Europe and other global regions). We included responses from professionals who said they had experience hiring MBAs and filtered the data to obtain better geographical diversity. Below is some relevant data shared with us by our respondents:
2.	Stanford University	Palo Alto, CA	3.	
3.	University of Pennsylvania (Wharton)	Philadelphia, PA	12.	
4.	Massachusetts Institute of Technology (Sloan)	Cambridge, MA	7.	
5.	University of Chicago (Booth)	Chicago, IL	25.	

Homeless People Use Technology: A Photo Essay On Poverty And Consumer Gadgets

NOV 2 2014, 12:37 AM

It's not always the case.

Two weeks last year, we discovered that dozens of homeless people in New York City don't own any consumer electronics they own. It's not always the case.

Two weeks last year, we discovered that dozens of homeless people in New York City don't own any consumer electronics they own. It's not always the case.

and iPhones, to government agencies. It quickly became clear that as people use gadgets to stay connected for jobs, and pursue their own dreams.

People should have given their permission for us to take their picture, though some didn't.

... who owns both a Dell Inspiron laptop and a Samsung
